

BEYCO

“Beyond Coffee” is a global coffee connection and trading platform based on blockchain technology. Beyco makes it easier to trade and creates transparency in the worldwide coffee supply chain. It is free to use for coffee buyers and sellers. Roasters and traders can register as buyers. Producer organizations, cooperatives, associations and farmer companies can register as sellers.

Beyco is created in order to respond to the needs from coffee sellers to get in touch with international buyers and to the demand from coffee buyers to find reliable partners. Buyers and sellers from all over the world can connect directly with each other and trade their coffee on Beyco. By trading through the platform, data is stored safely and can be shared privately with other partners. This helps sellers and buyers to build up a track record and have all their information in a clear overview. Being transparent by sharing data and creating direct connections generates trust among all stakeholders. Existing relationships can be digitalized to generate a track record as well. Curious how you could use Beyco? Register now on www.beyco.nl or get in touch with us!

TRADE

Beyco is developed by Progreso Foundation, a Dutch non-profit organization that supports coffee and cocoa sellers (producer organizations, cooperatives, associations and farmer companies) with becoming professional and sustainable businesses. We are active in Latin America, Africa and Asia. As an independent neutral party, Progreso is owner of Beyco and manages the platform. Visit www.progreso.nl.

Beyco facilitates

- Access to market through direct trade relationships for both coffee buyers and sellers
- Efficiency in communication and trade
- Easy data sharing among different stakeholders
- Transparency in the supply chain: insights in coffee and cash flows
- Credibility of contracts closed between parties
- Creating trust by generating track records for producer organizations and their members
- Access to finance through easy sharing of these track records with financiers

Why would I trade through Beyco?

- Direct access to worldwide coffee buyers and sellers
- Efficient communication through real-time data sharing
- Safe storage of data through blockchain technology
- Creating a track record of your tradesIndependent platform, a network of trusted parties
- Visualization of contract details on a public map helps with reliability of that data
- No costs involved for buyers and sellers, it is free to join and use the platform
